

## **LIVING CONDITIONS/HOSTEL FACILITIES**

All Ugandan students must bear in mind that Russian Universities and education institutes are spread across the country which might have cold and harsh climate.

There are NO direct flights only between Entebbe-Moscow and students studying in different regions have to take further flights/modes of transport to reach their destination.

Students are advised to prepare their transport fee for internal travel after arrival in Moscow

Cost of living is generally high and the students are generally expected to cook their own food.
